- **ALPHA Super Concentrates are supplied in packs of 2 x 2L**
- **Dispensers are supplied “free on loan” subject to agreement**

ALPHA Super-concentrates

A new level of safety, economy and simplicity from a range of high performance products

ALPHA super-concentrates introduce a range of high performance products combining safety and ease of use with guaranteed economy using the Brightwell Super C[®] dispenser. Dosing of the products is automatically controlled - virtually eliminating waste through over dosing and spillage. This ensures costs are kept to a minimum by dosing the correct quantity time after time. A timer delay within the dispenser reduces the risk of accidental over dosing.

All products are colour and name coded to make them easy and safe to use. They are supplied in 2lt containers which fit directly into the dispenser for security. As the products are super concentrated stock levels can be significantly reduced.

The ALPHA Super Concentrates system:

- **LOW IN USE COSTS** - Dilution is automatically controlled
- **INCREASED SAFETY** - Products are securely locked within the dispenser
- **EASE OF USE** - Products and labels are colour coded to minimize errors
- **ELIMINATES WASTE** - Measured and timed dosing guarantees economy and prevents accidental over use
- **SAFE TO USE** - Products are classified by c.o.s.h.h. as non hazardous or irritant
- **ENVIRONMENTALLY FRIENDLY** – Less chemicals are used
- **REDUCED STORAGE SPACE** – Fewer and smaller bottles are required
- **FLEXIBLE** – Dispensers can be fitted virtually anywhere

Dispensing can be into a trigger spray, bucket or over-sink for pot washing – all have metered dosing with a time delay to prevent over dosing.

READY TO USE CATERING PRODUCTS

The convenience of clearly labelled and colour identifiable professional products which require little or no user/staff training offer the best solution when it is difficult to train staff or there are a high number of untrained staff doing the same job. They provide consistent high quality, low risk products every time.

Professional Trigger Spray Products

Product Code	Product	Pack Size
R 711267	FORCE – foaming caustic oven cleaner	750ml
R 763067	SHIFT IT – low caustic, low odour oven cleaner	750ml
